Description:

Following the standards for competency established by the American Physical Therapy Association (APTA) related to conducting a screening examination, **Differential Diagnosis for Physical Therapists, 5th Edition** gives you a consistent way to screen for systemic diseases and medical conditions that can mimic neuromuscular and musculoskeletal problems. This comprehensive text centers on a 5-step screening model that covers past medical history, risk factor assessment, clinical presentation, associated signs and symptoms, and review of symptoms for each client.

- **5-Step screening model for differential diagnosis** includes past medical history, risk factor assessment, clinical presentation, associated signs and symptoms, and review of symptoms.
 - **Systems-based approach to the physical therapy screening interview** provides a consistent way to screen for systemic disease and medical conditions that can mimic neuromuscular and musculoskeletal problems.
 - **Three sections of content** present material in a logical way that covers:
 - An introduction to the screening process
 - Viscerogenic causes of neuromusculoskeletal pain and dysfunction
 - System origins of neuromusculoskeletal pain and dysfunction
 - **Cognitive processing and reasoning orientation approach** encourages you to gather and analyze data, pose and solve problems, infer, hypothesize, and make clinical judgments.
 - **Case examples and case studies** give real-world examples of how to integrate screening information into the diagnosis process.
 - **Screening tools** in the book and on the Evolve companion website feature forms and checklists used in professional practice.
 - **Introductory information on medical screening concepts** set the stage for how screening is presented in the rest of the book.
 - **Reference values for common clinical laboratory tests** offer easy access to pertinent information references in a screening exam.
 - **Red flag histories, risk factors, clinical presentation, signs and symptoms, helpful screening clues, and guidelines for referral** bring your attention to the important information a therapist needs to be aware of during the screening process.
 - **NEW! Full-color design, photos, and illustrations** clearly demonstrate pathologies and processes.
 - **NEW and UPDATED! Evolve resources** include printable screening tools and checklists, practice test questions, and more to enhance your learning.
 - **NEW! Hot topics** keep you informed on rehabbing patients in the dawn or more current surgeries.
