Description:

Review

Stoll did some planning but allowed chance to govern his journey. -- The New York Times

Scott Stoll's cycling journey around the world raises countless questions about life in our time and answers quite a few of them. He is at once charming, innocent, fearless, and wise in his search for the world and himself. What does he find? Joy, tranquility, no end of personal challenges, and a whole lot more. --Larry Habegger, Executive Editor, Travelers' Tales Books

[Stoll] did something most of us would not do: He decided to ride his bicycle around the world. His

impulse isn't as strange as it might sound. Humans have always sought answers to life's perplexing questions by undertaking long and arduous journeys. --San Francisco Chronicle

Scott Stoll lives a life the rest of us only dream of. With a keen eye and an open heart, he expresses the joys and aggravations of traveling the world on two wheels. --Michael Berry, Bay Area book critic

See! There's something else for us out there, we just have to dream a little bit. --WGN Chicago

It was an exhausting yet exhilarating trip filled with both human kindness and treachery, with nature's beauty, challenge and danger. --Milwaukee Journal Sentinel --This text refers to an out of print or unavailable edition of this title.

From the Author If you enjoyed "Falling Uphill" the independent best-selling book, don't miss the children's edition "Falling Uphill: The Secret of Life", which was illustrated by an elementary school, adding a whole new level of inspiration. This is my proudest accomplishment. Also, consider the young adult edition with 236 photos, more stories and a guide to starting your own adventure. It makes a great gift for grandkids or a nice coffee table book.
