Description:

This medical terminology text uses a Programmed Learning approach that is ideal for classroom use, self-paced study, or distance learning. It is broken down into concise self-instruction frames followed

by review frames for immediate feedback and reinforcement. Actual medical records and medical record analysis activities are used extensively throughout the book. Highlights of this edition include a more engaging design, additional illustrations, more detailed coverage of term components, chapter objectives checklists, and acronyms and abbreviations charts.

A free bound-in CD-ROM contains Stedman's audio pronunciations and interactive exercises.

LiveAdvise: Medical Terminology—an online student tutoring and faculty support service—is free with the book. A fully customizable online course created specifically for this text is available as an additional purchase.
