Description:

Review Here are important facts you must know about well-intentioned counselors who are more committed to political correctness than to students' physical and psychological safety written

clearly and passionately by a dedicated psychiatrist. This book tells all. -- *Nicholas A. Cummings, Ph.D., Sc.D., Former President, American Psychological Association; Distinguished Professor, University of Nevada, Reno; President, Cummings Foundation for Behavioral Health.*

How could the so-called caring professions ostensibly dedicated to student welfare have collapsed so completely in the face of pressure from a particularly hurtful and wanton cultural fashion? This is surely one of the most important questions of our age, and it underlies this generous, tender, lively, angry book—written by a therapist who has fought her way through the dangerous pieties of her profession and whose newfound hope is everybody's hope as well. -- *Midge Decter, author of Liberal Parents, Radical Children*

This book is a thunderous call for a truly honest discussion in society, but more importantly, between college-bound students and their parents. It is one of the few books I have read that can be a light on the path to health for our society that is, in certain areas, the university in particular, very sick. It is an absolute must read. -- *Joe S. McIlhaney, M.D.*

This is a punch-in-the-gut powerhouse of a book by a very brave clinician. The message is provocative and profound. . . . I wish others had the guts to speak out in a similar fashion. -- *Cal Colarusso, M.D., Training and Supervising Analyst, San Diego Psychoanalytic Institute*

About the Author ANONYMOUS, M.D. is a psychiatrist at the counseling center of a major American university. A campus atmosphere of intolerance forces her to conceal her identity.
