Description:

Since its first edition, *Ways of Reading* has offered a uniquely exciting approach to first-year composition, integrating reading, writing, and critical thinking with a challenging selection of readings and editorial support. By engaging students in conversations with key academic and

cultural texts, *Ways of Reading* helps students develop the intellectual skills necessary for academic work; it also bridges the gap between contemporary critical theory and composition so that instructors can connect their own scholarly work with their teaching. With a mix of shorter, more accessible readings from a broader range of academic disciplines, the eleventh edition offers more flexibility for instructors while continuing to help students become better writers by challenging them to be engaged and critical readers.
